

CMGC Risk Assessment - Covid-19

The Covid-19 pandemic can affect your lungs and airways. It is caused by a virus called Coronavirus and symptoms can be mild, moderate, severe or fatal. This is a Risk Assessment for dealing with the current Covid-19 situation on site alongside other safe systems of work, but it may not cover all scenarios, in which circumstances additional risk assessment will be required.

Company Name:	Chilwell Manor Golf Club	Date of Issue:	15 th December 2020
Location(s) Affected:	Compressed Air Cleaner	Issued By:	Nigel Smith

Hazard(s)	Who Might Be Harmed	Control Measures	Additional Controls	Risk Rating		
				L	M	H
Use of Compressed Air Blower – Spread of Covid-19 Coronavirus – Access to medical support – Contamination	– Workers – Members – Workers – Cleaners – Those with existing underlying health conditions	– Before each use the handle and touched areas should be sprayed with the disinfectant supplied and positioned adjacent to the airline station. – After use spray the handle and touched areas again with the disinfectant. – Users should then sanitise their hands with the hand sanitiser provided in the adjacent dispenser for a minimum of 20 seconds. – Cleaners to regularly carry out full clean of all handles and touched surfaces. – Ensure a 2-metre distance is maintained between people queuing to use the equipment.	Consider the potential background of contamination to allow controls against further spread.			
Vulnerable Persons – Increased risk of infection – Contamination – Spread of Covid-19 Coronavirus	– Those with existing underlying health conditions
